

To Whom It May Concern,

I Chris Le'Var Veal write to swear and testify that all information in this letter is true and accurate to the best of my knowledge.

I am writing this letter on behalf of Vernon Bateman. I am the brother of Angela Truitt. I give my apology to the court and my deepest sympathy to the Bateman family for all the grief and trails and tribulations endured unrighteous. When I say unrighteous I mean, a man being convicted and serving time by the testimony of a False Witness. We have a God-Given Right as citizens of Humanity to search, Keep, and Uphold all truth.

Angela Truitt has suffered many things in her (Angela's) past. Along the way she (Angela) has allowed many people to suffer, including her (Angela's) family. Just back in June of 2007 Angela was diagnosed with bipolar-sycophantic. Angela put on an act of being abducted. Angela stayed away from for three days. Angela accused a couple of kidnapping, beating, and trying to have sex with her. The police had the helicopter, and dogs out looking for her and also her family. On the third day Angela called her home screaming Help.. Help.. Then in about a half an hour later Angela was at Wishard Hospital's Mental Ward, were Angela had no signs of any of the acts that Angela claimed to have suffered. Later Angela told her family that she (Angela) had just been very stressed out, and went for a long walk. With no remorse of the people Angela had allegedly accused of these crimes, Angela goes on with her life like nothing has ever happened.

The doctor told Angela's family that any drugs or alcohol consumed with the prescribed medications would cause hallucinations. Angela's hallucinations become a part of her identity, hurting those that Angela knows and those Angela don't know. It is the job of me (Chris L. Veal) and my family to bear witness of the Truth, that the innocent be set Free and that Justice Prevail.

In All Serenity
Chris L. Veal

P.S.

If you need any other patterns of Angela's behavior I will honestly come and testify.
